About CIVITAS SUMP's-Up

Objective

Enable mobility planning authorities across Europe to embrace SUMP as the European-wide strategic planning approach, especially where the take-up is low and the negative effects of transport are severe.

Target

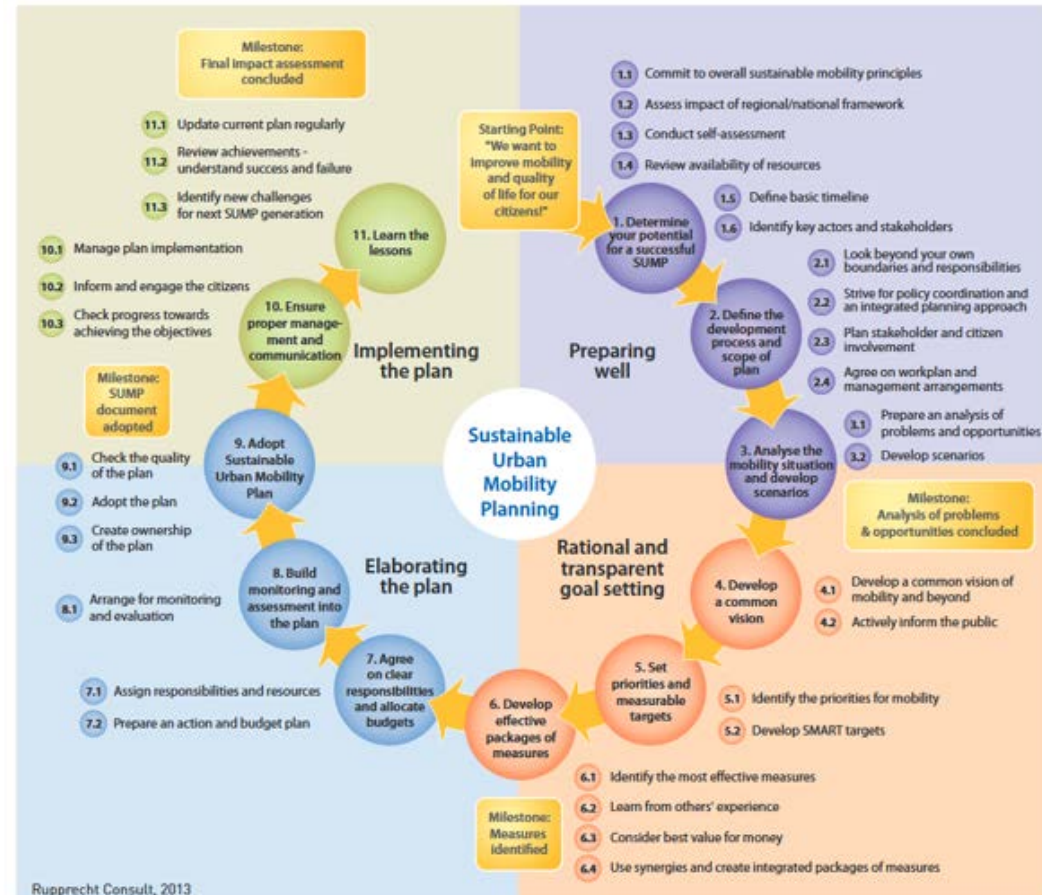

- 7 SUMP's-Up partner cities
- training for 100 cities
- capacity building for 200 mobility practitioners
- reach out to 600 authorities
- 30 SUMP's prepared

Mobility practitioner?

Going through the SUMP cycle – a challenge?

PLANNING CYCLE FOR A SUSTAINABLE URBAN MOBILITY PLAN

There are as many different ways to set up a SUMP as there are cities..

... however there are also common elements that result from implementing the SUMP cycle steps and activities that form important parts of SUMP.

Sounds complicated?

Guidelines

Start - Beginner Cities

This offers examples and suggestions on conducting measure selection for a first SUMP, possible measures to consider, grading these measures, and gaining approval for their implementation.

Step-up - Intermediate Cities

This gives advice on applying a more systematic approach to measure selection, finding synergies between different measure types and policy areas, and integrating measures from new fields into what has already been done in a city.

Innovate - Advanced Cities

This focuses on finding ways to cooperate with stakeholders and the public and open up participation, approaches that help realise the implementation of new ideas, and devising strategies to foster innovation and reach beyond the transport sector.
