

## UBC TALKS Webinar

# EU Mission: climate-neutral and smart cities by 2030

**Tuesday 25 October 2022**  
**09.30–11.00 CEST (10.30–12.00 EEST)**

[Event page »](#) | [Registration »](#)

The year 2022 marks the start of the EU Mission process for 100 cities to become climate-neutral and smart by 2030. UBC Sustainable Cities Commission organises a webinar to exchange the plans and ambitions of its member cities, as well as available support throughout the process. This webinar will provide an opportunity for the first discussions, as the cities prepare concrete plans on committing to become climate-neutral by 2030.

**Moderation:** Esther Kreutz-Hassinen, UBC Sustainable Cities Commission

**Technical support:** Mariia Andreeva, UBC Sustainable Cities Commission

<b>09.30–09.35 CEST</b>	<b>Welcome to the webinar</b>
