# ITS MINI PILOTS IN HUPMOBILE CITIES

## City of Riga | HUPMOBILE pilot case

Inga Pelša, City of Riga | Riga Energy Agency  
UBC TALKS about intelligent transport solution piloting

Riga, 09.06.2020

# City of Riga | HUPMOBILE pilot case

- The **Freeport of Riga** as the **backbone of the city's economy**

- total port area 6 348 ha
- 445 ha for new development
- multi-functional port, all types of cargo
- total cargo handling capacity 64 mill t/year
- passenger transportation

- **HUPMOBILE aims**

=> to reduce CO<sub>2</sub> emissions from the port-related transport operations

=> to relieve the Riga city centre from the heavy port-related transit traffic

=> to integrate innovations in the port logistics

# City of Riga | HUPMOBILE pilot case

- The Freeport of Riga **Development Programme 2019-2028**

*SO13*: To develop the Freeport of Riga according to the operating principles of the “**smart port**”

- **ITS mini-pilot** for the Freeport of Riga – an innovative smart mobility solution aimed to improve logistics in/around the port
  - management of cargo road transport flow
  - passenger mobility management
  - efficiency of data flow

**Traditional procurement → Innovation Challenge**

Innovation / Feasibility / Resources / Impact
