

2nd European Conference on Sustainable Urban Mobility Plans

16–17 June 2015, Bucharest, Romania

‘Sustainable mobility for everyone’

- European Commission keynote on policy, initiatives and future actions
- Learn about Romania’s new approach to mobility planning as part of the ambitious Growth Poles Programme
- Discuss ‘best practice’ in mobility planning with other European cities
- Participate in thematic working groups

Sustainable mobility for
All cities
How to make the case for a Sustainable Urban Mobility Plan and tailor it to your local context and budget

Sustainable mobility for
All people
How to tackle social exclusion, enable affordable mobility and improve access for all to jobs and services

And a special focus on
Planning techniques
Covering technical skills, such as data collection, scenario development, modelling and planning for energy efficiency

This is the principal annual event for all those involved in turning the Sustainable Urban Mobility Plan concept into practice. With over 250 delegates from across Europe expected to attend this free event, this is a unique opportunity to network, learn about the latest developments and exchange ideas about planning urban mobility.
